

8 Crazy Eights

1

Start by defining the problem you want to explore with the crazy 8 technique.

2

Ask each team member to add their name on the panels.

3

Set a Timer for 1 minute. Use the first sheet to illustrate your idea with stickies and scribbles.

4

Repeat the previous step until all sheets are completed.

5

Now it's time to present each panel and discuss ideas.

◇ Define the problem you want to explore.
